Kandasseril (H), South Paravoor (PO), Ernakulam, Kerala, 682 307

Experienced fintech team lead with 14+ years of experience in building critical, large-scale payment projects, specializing in Java/Kotlin (Spring Boot) and TypeScript (React).

PROFESSIONAL EXPERIENCE

Lead Engineer at Hatio Innovations (BillDesk), Kochi, Kerala (November 2019 – Present)

- ***UPI Plugin***: Implemented in-app UPI payments SDK which boosted payment success rates by 3x and delivered better UX for more than 270 million BHIM users by reducing a 5-step transaction into 2-steps by eliminating the traditional intent based UPI payment flow. (Spring Boot, Oracle)
- *Payment Router/Orchestrator*: Implemented a rule based request routing engine inside payment gateway system achieved 150 requests per second throughput by faster processing of previous transactions, predefined rules, and characteristics of the incoming request. Attained 95% code review compliance, and reduced critical bugs. (Spring Boot, Aerospike, Kafka)
- *Token Aggregator Solution*: Designed and developed a single window system to manage payment tokens associated with user payment cards. The system can eventually handle 107.7 crore cards issued in India by connecting the card issuing banks and networks. (Spring Boot, React, Oracle, Aerospike)
- ***Coinome (Crypto Exchange)***:
  - Built Coinome mobile app (React Native, TypeScript)
  - Built Price Action Streaming Service (Kafka, NodeJS)
  - Built Portfolio Data Streamer (Spring Boot, Kafka)
  - Implemented Stop Limit Order module (Spring Boot, PostgreSQL)
  - Restructured Coinome API module (Spring Boot)
- *Payment Gateway Onboarding Portal*: Developed a web app for customer onboarding to a payment gateway. (Spring Boot, Kotlin, PostgreSQL)
- *Payouts Ops Portal*: Backend system validating final transaction states by comparing live transaction data and logs. (Spring Boot, Reactive Programming)
- *Bank Proxy Service*: Backend development for proxy services for bank APIs used across multiple in-house products. (Spring Boot, Kotlin)

Senior Software Engineer at MobMe Wireless Solutions Ltd., Kochi, Kerala (May 2016 – June 2019)

- ***Vodafone Heart Beat***: Backend Engineer for a survey-based customer service experience product handling 6–8 lakh transactions/day. (Ruby on Rails, PostgreSQL, Elasticsearch)

Senior Software Engineer at QBurst Technologies, Kochi, Kerala (July 2014 – May 2016)

- ***RedBook***: Developed APIs for an aviation pricing project. Developed APIs and background workers for flight pricing data ingestion. (Ruby on Rails, PostgreSQL)
- ***PQBIds Portal***: Developed backend APIs for mobile apps enrolling citizens for a government agency to submit bids with event-based notifications. (Ruby on Rails, PostgreSQL)
- ***F1rst Dashboard***: Developed an admin panel to visualize customer activity statistics and reports, and user activity tracking using Mixpanel. (Ruby, Ruby on Rails, MongoDB)

Software Engineer at MobMe Wireless Solutions Ltd., Kochi, Kerala (April 2012 – June 2014)

- ***Online Complaint Registration System***: Developed a web portal for a State Transport Department in India. (Ruby on Rails, Redis, PostgreSQL)
- ***Telecom Value Added Services***: Developed APIs and maintained Centralized Billing Engine, WAP, USSD, and SMS-based mVAS products for a leading telecom service provider in India. (Ruby on Rails, MySQL, PHP, Symfony)
- ***Exam Results through SMS***: Delivered public exam results for 5+ lakh students via SMS. (Ruby, Sinatra)

Software Engineer at Media Systems India Soft Solutions (July 2011 – April 2012)

- ***EBilling Online***: Developed partner onboarding feature and updated recon processing feature to accommodate a new recon file format for leading US pharmacy consultant firm's project. (C#, .NET, MSSQL)

SKILLS

- Languages / Frameworks: Java, Kotlin, Ruby, TypeScript, Ruby on Rails, Spring Boot, React Native, React, JavaScript, awk, Bash, CSS, Sinatra
- Database Systems : PostgreSQL, Oracle DB, Redis, Aerospike, Elasticsearch
- Soft Skills : Team Leadership, Agile Processes, Technical Mentoring, Technical Support (DevOps, Client, QA)

EDUCATION

Bachelor of Technology in Computer Science and Engineering, Mahatma Gandhi University, Kottayam, Kerala.
